I was all up in your territory that night I snuck into your house
Oooh Somewhere about 3am
And I took advantage of you in your passed out state
the way I like to
Yeah, In your own bed
That was 8 years ago today
And now I've got you around to stay
Oh yeah Oh yeah

Well I have waited waited
I have waited patiently for you
Yes I have waited waited
I have waited patiently for you
Sure there wer other guys but somewhere in the back
of my mind
I was always waiting waiting
I was waiting patiently
For you

It was just you and me headed out for the night life and
the good times
Chicago Music scene
And I told you I had a new guy that I really liked but you
didn't mind
And you still said you had a big crush on me
That was 4 years ago last week
And now I've got you around to keep
Ooh yeah ooh yeah

Well I have waited waited

I have waited patiently for you
Yes I have waited waited
I have waited patiently for you
Sure there were other guys but somewhere in the back
of my mind
I was always waiting waiting
I was waiting patiently
For you

Let's get crazy

I like being your baby
Maybe you and I could try
To step up to bat
And hear the ball hit, Crack
Grand slam right out of the park like that
Because sometimes when I taste you love on my lips
I notice you can't help but smile
It fuels my ego trip
I like the way you make me feel like that
I like the way you make me feel like that

Well I have waited waited
I have waited patiently for you
Yes I have waited waited
I have waited patiently for you
Sure there were other guys but somewhere in the back
of my mind
I was always waiting waiting
I was waiting patiently
For you
