It's 3 AM and I'm wondering
wondering about you and where you might be
We said some things, some foolish things
Now all I really want is you close to me

Life has no meaning without you
when there's no sharing there's no truth
I know you hurt inside
So come on baby back, back home to me

Refrein :
Caus' there's nothing gonna stop me loving you baby
Nothing gonna stop you driving me crazy
Nothing gonna stop the way that I feel
Cause I know this love is real

I know this love is real
I know this love is real

You and me we're meant to be
Like the sun and moon, the stars and the sea
But now and then we loose again
The dream of you and me and all we could be

Love isn't easy but it's true
You know the one I love is you
And it's just a matter of time
So come on baby back, back home to me

Refrein

This love is real - this love is real
This love is real - this love is real

Oh- you know it's true baby.
I know it's you and me - I know it's you and me

Refrein
