Love is hard to understand  
But one thing is sure love gives you a hand  
A hand to walk on in life  
A hand to reach out for you  
And these are the things that love can do  
refrain:  
When you are down when you don't laugh  
Love is the only thing you have  
And when you need love when you need me  
I'll be there for you you will see  
Love is hard to find  
But it's stil in everybody's mind ooh  
You need it 'caus else you don't get on in life  
Love can hurt you but always remember  
refrain:  
When you are down when you don't laugh  
Love is the only thing you have  
And when you need love when you need me  
I'll be there for you you will see  
Everytime you think of love  
You're thinking of something beautiful  
When you love someone always remember  
Love is al they need  
refrain:  
When you are down when you don't laugh  
Love is the only thing you have  
And when you need love when you need me  
I'll be there for you you will see 2x  
You need a hand for love  
For in eternity
