Baby no talkin
Just heavy breathin
Now you bad fall back, be easy
Hey
Hear the clock tickin
I don't wanna be asleep
Que no pase ni un minuto quiero estar contigo
Deep wit you
Tracin my lips wit your fingers hey
Just keep it in motion high devotion the first night
And it's so amazing
Somethin like an hour life
You turn me on
No me importa when the othas come around
Ill kick em to the curb
Ill put you first
Betta come up with a reason why I'm touching you
softly
Get it boy I don't do this often
I don't get down like this hey
And it eva took a lot to get it down like this, hey hey

[Chorus:]

I so
So so
Don't want you to go
I admit it
Im wit it so stay
I so
So so
Don't want you to go
I admit it
Im wit it so stay

So can we talk, just how real can I be wit you
Can you handle the truth
I don't wanna play games nuh uh
Dinner, candles, and flowers
Been talkin for hours
And conversation is stimulatin uh huh
You lookin at me
Im lookin at you

Is it time to go?
At this point what do we do?
I got this feelin
I don't mean to be forward
But I don't wanna waste this chance wit you
Boy I so

[Chorus:]

I so
So so
Don't want you to go
I admit it
Im wit it so stay
I so
So so
Don't want you to go
I admit it
Im wit it so stay
And if you don't leave til the daylight
That's aight with me
How can I say it?
Spend the night with me
Staaaaaaaaaaaaay stay
I need you wit me

Growin up mama always said
A lady just waits never makes a move first

Oh no
Gotta take into account
That she didn't know you
Oh you make me throw roofs to the wind
I can't let it go
Gotta speak my mind
Its about the time
I know that were thinkin the same thing SO
I don't mean to be forward
But I don't wanna waste this chance wit you

[Chorus:]

I so
So so
Don't want you to go
I admit it
Im wit it so stay
I so
So so
Don't want you to go
I admit it
Im wit it so stay
And if you don't leave til the daylight

That's aight with me
How can I say it?
Spend the night with me
Staaaaaaaaaaaaay stay
I need you wit me

Feel my heart it's racin
And I can't even pace it
The chemistry is blazin
Should I stick to the basics?
Lay back, get cozy, maybe
Sip on mo wet pop bottles crazy
And committed but listen baby
Just stay wit me tonight
I'll be your only lady
See it aint like
What it seems like
But it be like
Everything' right
And I really wanna be wit you
I can't think of the thought of choosin two nah
Cant let you go cause I'm so selfish
I want you bad and I can't help it
Don't be mad I wont tell what happens
That I came first when it came to askin you to stay

[Chorus: x2]
I so
So so
Don't want you to go
I admit it
Im wit it so stay
I so
So so
Don't want you to go
I admit it
Im wit it so stay
And if you don't leave til the daylight
That's aight with me
How can I say it?
Spend the night with me
Staaaaaaaaaaaaay stay
I need you wit me
