"When She Cries"

Visit "[When She Cries](#)" on MotoLyrics.com

Girl, would you please give it try

Girl I know that you're feeling down (you say it too)
But I'm so sure I can fix that frown
I will never leave you, not deceive you
I can help you finish your fight
I can make you happy, if you let me, I'll take care of you
I can make your dark world bright

Chorus:
When she cries
When she cries
I see a rainbow
I see a brighter day

Chorus

You go thru sad times girl I know
'Cause of the feelings I never show
If you would just give me a try (would you give me that)
You will see that in time...

Chorus (repeat)

When she cries I see
When she cries I see
Now we both have come this far, I don't want you to
give up
You just grab that shining star, filling in your loving cup
And we both stay together, together forever
We leave it all behind

Yeahh when she cries
