Everytime I look at you
Got a feeling deep and true
Ooh... I can't stand it any longer
I wonder if you feel the same
In my dreams I call your name
This feeling in my heart is getting stronger, yeah
How can I get close to you?
It's hard for me to find the clue
I long for you coz you are my desire
I wanne make a dream come true
This dream about me and you
How... can I ever light your fire
Chorus:
Why?
Why I'm too shy
To tell you that I like you
(To tell you that I like you baby)
Chorus
I got to make you look at me
I got to make you talk to me
I got to make you understand
I got to make you hold my hand
I got to make you catch my smile
Talk to you for a little while
I got to take your heart away
I wish I'll find the way
Please tell me
Chorus
Tell me why you're to shy for me baby
Tell me why, tell me why boy
Tell me why you're to shy for me baby yeah
Tell me why you're to shy for me baby
Tell me why, tell me why boy
Tell me why you're to shy for me baby
Rock me baby now!
Chorus
