I can't get you out of my head the way I feel,
The things that you said everything that I try to do
I can't help but to think of you
I need you, but I know it ain't right
I know these feelings I should try and fight
But every waking moment...
I dream of you girl-oh baby
People say that it's not proper
You shouldn't want when you're with another
These feelings I just can't name
I didn't write the rules of this game
I need you...but I know it ain't right
I know these feelings I should try and fight
But every waking moment...
I dream of you girl-oh baby
Maybe I should start anew
Put things right so I can get next to you
Is the grass greener or just another story
The whole situation fills me with worry
Cause every waking moment I dream of you
So for now I'll just have to survive
And my dreams will keep you memory alive
One day maybe I'll make up my mind
And the answer to my problem I'll find
I need you, but I know it ain't right
I know these feelings I should try and fight
But every waking moment...
