I think I have known you
Always
Even though we're apart
It felt so good when we start out
I didn't want it to happen
But hey, it's just a part of life
But I'll get over it
Sooner or later

Yesterday was just another thing of the past
But my memory of you will always be here

But I still have love for you, always
Once in a while I think of you always
I thought these feelings have changed always
But I guess it's time to go on, always
I wonder if you ever think of me always
And I'll still remember you, always

I thought everything would change
I thought life would be different
But it's just not right now
It's not as easy as you think
I always had to say goodbye
To yesterday
But all the tears have dried
I'm sure it's not coming back
At least not today

Yesterday was just another thing of the past
But my memory of you will always be here

But I still have love for you, always
Once in a while I think of you always
I thought these feelings have changed always
But I guess it's time to go on, always
I wonder if you ever think of me always
And I'll still remember you, always

I wanted to reach out my hand
But now I don't feel it anymore

I guess it's time to carry on
Without me

Oh Woooooaaaaaaaahhhhhh
No matter what they say
I will be just okay

But I still have love for you, always
Once in a while I think of you always
I thought these feelings have changed always
But I guess it's time to go on, always
I wonder if you ever think of me always
And I'll still remember you, always

No more tears to lose
I wanna be over you
But I can't get you out
Out of my head
But all I know is that
These feelings can change
