

## Jim Cosgrove "Come Back To Me"

Visit "[Come Back To Me](#)" on MotoLyrics.com

When I said "go"  
I wish I never said it  
I was wrong  
I didn't know what to do  
Now I'm all by myself  
Just bored and all alone  
You never answer me when I call your phone  
Or even when I call your name

Baby, please come back to me  
Make my night as bright as day  
I'll be looking out for you  
Hope you know what I'm feeling too  
Baby, please come back to me  
I'll follow you anywhere you go  
I just want you to know  
That I wished you had never go  
Baby, please come back to me

Yeah-ah

You and me  
We shared a mystery  
We were so close  
Like a perfect family  
Spinning around, getting lost  
But I won't give up just yet  
So, starting today  
Let's cross each others way

Baby, please come back to me  
Make my night as bright as day  
I'll be looking out for you (For you)  
Hope you know what I'm feeling too (ooh)  
Baby, please come back to me (Please come back)  
I'll follow you anywhere you go  
I just want you to know (Come back to me)  
That I wished you had never go (Oooh ooh oooh)  
Baby, please come back to me

We can fly anywhere to the sky  
I don't wanna wait another night

Cause I can't keep on feeling alright  
Baby, come and take me home  
I'm feeling cold tonight  
Don't know if I'm gonna be alright  
We can fly anywhere to the sky  
I can't wait another night  
Take me home, take me home  
(Come back, come back)

We can fly anywhere to the sky (We can fly to the sky)  
I don't wanna wait another night  
Cause I can't keep on feeling alright (Ooooh Oohohooh)  
Baby, come and take me home  
I'm feeling cold tonight  
Don't know if I'm gonna be alright (Alright)  
We can fly anywhere to the sky  
I can't wait another night (I don't wanna wait)  
Take me hooooooooooooome  
(Come back to me)

Baby, baby, baby...  
Come back to me!

Baby, please come back to me (Oh oh oh)  
Make my night as bright as day (Make the night as  
bright as day)  
I'll be looking out for you  
Hope you know what I'm feeling too (You know)  
Baby, please come back to me (Ohhhhhh yeeeeaaahh)  
I'll follow you anywhere you go (Anywhere you wanna  
go)  
I just want you to know (Please don't go)  
That I wished you had never go  
Baby, please come back to me (Come back to me)
