I see you everyday walking with
All of your obnoxious friends
And now, I'm having worries
About, what your friends think of me
And you keep on acting like them
What's going on?

Cause I'm not falling
For this stuff again
It's just the same thing
That happened to me
I'm so tired of this:

Just forget it!
I just don't know why
I even try anymore
With this nonsense
It's driving me insane
Just forget it!
I'm not even gonna talk
About it, tonight with you
You'll just have to figure out what's wrong
If you don't, then you're on your own

Oh

You try to mimic everything I do
Wait a minute that's not even how I act
I thought it was just a friendly joke
But this has been going on too long
Like about three months
It's just getting old now

I guess I'm just
In too deep
It's not fair for me
Cause I try
The hardest I can do!

Just forget it!
I just don't know why
I even try anymore (anymore)

With this nonsense
It's driving me insane
Just forget it!
I'm not even gonna talk (No matter what you say)
About it, tonight with you
You'll just have to figure out what's wrong (Oh)
If you don't, then you're on your own (oohohohohoh)

That's it I'm gone
Just like that
I can't believe that
I was a fool for you
It's going on too long
It was funny at first
But it really hurt me on the inside

Cause I'm not falling
For this stuff again
It's just the same thing
That happened to me
I'm so tired of this, yeah!

Just forget it! (Just forget it)
I just don't know why (Don't know why)
I even try anymore (I even try)
With this nonsense
It's driving me insane
Just forget it! (Oh, no)
I'm not even gonna talk
About it, tonight with you
You'll just have to figure out what's wrong
(Ohhhhhhhhhhhhhhh)
If you don't, then you're on your own
(Oooooohohohohh)

Just forget it!
Heyyyyyyyyy!
Just forget it!
I'm better without you
Just forget it!
No matter what you say
Just forget it!
You're on your own!
Just forget it!
