I'm staying, moving around solo
You keep asking me why you avoid me
And you don't know
But I don't care
Cause I'm just tired of this now (oh, oh)
You don't realize what you do to me
Everyday you pet me down
I'm tired of being the weak one
Now it's your turn to feel
To feel how you're gonna miss me (oh, oh)

So how
Will you go on now?
Don't try to get back with me
Cause I'm moving on

Don't let yourself tell you
That your life is a mess
Cause you had it all
You tried to be every color
That you really weren't
You tried to be someone different
I'm going on by myself now
And you don't even know how
How it feels to have your loved one gone
I am gone forever
I am gone forever yeah

Yeah yeah yeah yeah
Yeah yeah yeah yeah

You ask me where all my friends
I answered why do you wanna know
Cause believe it or not
I know what you're doing
Behind the scenes (oh, oh)
You be flirting with my bffs
I'm always filled with rage inside
I don't let out though cause
It's better to have you not knowing
What caused me to leave (ooh, whoa)

So how (how)
Will you go on now? (now)
Don't try to get back with me
Cause I'm going on!

Don't let yourself tell you (Ooh)
That your life is a mess
Cause you had it all
You tried to be every color
That you really weren't
You tried to be someone different (You tried to be)
I'm going on by myself now
And you don't even know how
How it feels to have your loved one gone
I am gone forever (Ever, ever, ever)
I am gone forever no no!
Ohhhhoohhhoh

You can cry all you want
Won't change a thing
Just to let you know
You're nothing
With out me
But it's too late now
Finding someone else
Goodbye...

You really think I would come back to you?
Well, you got it wrong cause'
I don't get back with people who hurt me
You really think you're better with out me?
Ooh, you know that's not true
I gave my all but you tore it all up
It's my turn now

Yeah yeah yeah yeah (yeah)

So how
Will you go on now?
Don't try to get back with me
Cause I'm moving on

Don't even tell yourself
That your life is over
You could've been every color that you were
So don't even try it
You think I would buy it?
Don't be someone different
Just go on with yourself now
And you don't have to know how
How it feels to have your loved one gone
