Shut up for a minute  
I don't need to hear your mouth complaining  
Just hold on for a second  
And I'll be right back  
I'm figuring out what I should do with you  
You're just not worth my time anymore  
But I don't know if I'll regret it  
So, I gotta plan this out perfectly  
You wanna joke around with your girls  
On how I could be taken advantage of  
Just too easily  
I only have myself to help with me

But I've decided it's your turn to get heartbroken  
I'm tired of having this all on me  
It's your turn to have you breakdown  
See I had to brutally state the facts  
Now where's that other guy you've been seeing alot  
I need to tell him to look out for someone like you  
Cause it's just another person that's been saved  
From being heart broken

I see you try to walk out on me every night  
I keep thinking you just gonna go for a drink  
Not really a big deal to me but  
I heard from my friend who saw you at the store  
He said that you was talking to this random guy  
And he also said that he saw you and him kiss oh!  
And I knew he wasn't lying cause I knew him for six  
years  
So tell me, how you gonna get out of this one (this one)  
You got no one to back you up  
You look like you're gonna hit the freakin wall, ha!  
Now you know how it feels to get hurt  
Yes...

But I've decided it's your turn to get heartbroken  
I'm tired of having this all on me  
It's your turn to have you breakdown  
See I had to brutally state the facts  
Now where's that other guy you've been seeing alot

I need to tell him to look out for someone like you  
Cause it's just another person that's been saved  
From being heart broken

You're nothing but a cheater  
Can't believe I fell for your traps  
Who ya gonna run to  
When this is all over?  
You trying to be big about it  
But let's face it you can't handle not having me  
So before you leave  
Make you sure you leave a six pack  
In the cooler  
So I can drink the night away  
And forget this, oh oh!

But I've decided it's your turn to get heartbroken  
I'm tired of having this all on me  
It's your turn to have you breakdown  
See I had to brutally state the facts  
Now where's that other guy you've been seeing alot  
I need to tell him to look out for someone like you  
Cause it's just another person that's been saved  
From being heart broken

This is for your information  
If ya wanna do this all your life  
Cheating on guys  
Breaking their hearts  
When they've did the best for you  
Then go ahead cause I'm better off  
I'll even spread the rumor to your girls now (to your  
girls now)  
I wanna know what they think of you after that  
And yes I learned from you  
I learned not to cry over someone  
That's not even worth my time anymore

But I've decided it's your turn to get heartbroken  
I'm tired of having this all on me  
It's your turn to have you breakdown  
See I had to brutally state the facts  
Now where's that other guy you've been seeing alot  
I need to tell him to look out for someone like you  
Cause it's just another person that's been saved  
From being heart broken

This is for your information
