I guess it's just that time
For me to pack my bags and go
Cause last time that I almost left
You should've let me do it
I'm pretty sure we both know
We can't do this anymore
And I don't wanna hurt you
So, this is my final goodbye

So I guess now
This is where the end starts
I don't know what will be
Down the road from here
Maybe I'll just disappear

It's the time for us to move on
Can't stay with each other no more
It's just too difficult between us
Can't really remember what happened
Now, I'm trying not to cry
I won't say a lie
To you now cause
I'm going on, I'm going on
Going on, oh I'm ready
I think it's time for you to
Go on as well

Nooooo...

What happened with us?
I thought we had a special connection
Something must've ruined it
Why must it happen now?
I don't know if I'll be over you
I just don't wanna get in these fights
They tear us apart
I'll still have love for you
And I know it's true
Yes, you know it too

So I guess now

This is where the end starts (oh)
I don't know what will be
Down the road from here
Maybe I'll just disappear

It's the time for us to move on
Can't stay with each other no more
It's just too difficult between us
Can't really remember what happened
Now, I'm trying not to cry
I won't say a lie
To you now cause
I'm going on, I'm going on
Going on, oh I'm ready
I think it's time for you to
Go on as well

And I hate this part
I can barely breathe
Looking in your eyes
Will be one of the best things
I will ever remember
But just one more time
I want to look in your eyes
Eyes

I'm going on...cause I'm going on
Oooooooooohhhhhh
I think it's time for us
To just move on, no no!

It's the time for us to move on
Can't stay with each other no more
It's just too difficult between us
Can't really remember what happened
Now, I'm trying not to cry
I won't say a lie
To you now cause
I'm going on, I'm going on
Going on, oh I'm ready
I think it's time for you to
Go on as well
Without me
And I have to deal with my days
Without you
I hate this part...
