I can't get it out of my head
It bothers me every day
To know that I can't be
One of those people
That always seemed to be talked to

It was kinda embarrassing
It's like I was a ghost in front of certain people
I wanted someone to at least notice me
But no one really bothered
Nobody ever did

I'm tired of feeling left out
It's all the same each day
It never goes away
That empty feeling inside me
I never really opened up
I was scared someone would find me weak
I always cared what people would say
About me, I can't help it
No one really wanted to speak to me
Because I was always left out
Out oooooohhhhooh

Always in the summer
I spent it by myself
Didn't called anybody on the phone
Never had their numbers anyway
Didn't feel like going outside that much
Ooooooohhhhh

I wish someone would open to me
So I can open up to them
It will be easier for me
Because I know that someone
Would want to know what's going on

I'm tired of feeling left out
It's all the same each day
It never goes away
That empty feeling inside me

I never really opened up
I was scared someone would find me weak
I always cared what people would say
About me, I can't help it
No one really wanted to speak to me
Because I was always left out

If I was upset about something
Would you care enough to know what happened?
I always had my doubts
But you're not like the rest
You're one of the best, yeah
And don't you know
Don't you knooooooow!!!!!!

I'm tired of feeling left out (Ohhhhhhhhhhhhhhhhhhh)
It's all the same each day (Ohohohohohhhohohh)
It never goes away (Yeeeahahh)
That empty feeling inside me (Oh!)
I never really opened up
I was scared someone would find me weak
I always cared what people would say
About me, I can't help it
No one really wanted to speak to me
Because I was always left out

I don't wanna feel left out
I always feel this way
I had nothing to say
So that is why
I never really opened up
I thought I would be vulnerable
I always put someone before
And I can't really help it
No one really wanted to speak to me
Because I was always left out
Ooh, I hate being left out
