No I would never desert you
I would never leave you alone
And I will always be there
When your world comes crashing down
And I'll help dry the tears
Cause I don't want it to happen here
I'm never gonna give you up
Cause there is nothing that can change us
Or that can tear us apart

You don't need to please me
Cause I know you inside and out
There's something about this
That was always here when we met

Cause you'll always be my friend
Yes, we may have our big fights
But in the end, we'll just be laughing
On how we used to be
And there's nothing that can burn these memories
Cause you'll always be my friend
Oooooohhhh

And believe me you don't have to worry
Cause I got your back
There's still something about you
That was there when we met

Till now, I never really thought that
What we had is our history
Tomorrow is another day
For the both of us
Who knows what will happen
But it will always come back to this
That we still want to talk to each other
Each and every day

No matter what happens you'll always be my friend
Yes, we may have our big fights
But in the end, we'll just be laughing
On how we used to be

And there's nothing that can burn these memories
Cause you'll always be my friend

Remember when we use to talk
About our lives and relationships
Family and other friends
And how we needed help
When we were in trouble
Well, I wish that it would never end
Cause you made me feel better about myself
Myself

Oh!

No matter what happens
You'll be my friend
And in the end, we'll be laughing
On the things we did
Nothing can erase that
You being my friend!

And that you'll always be my friend (No matter what happens)
Yes, we may have our big fights (You'll be my friend)
But in the end, we'll just be laughing (And in the end, we'll be laughing)
On how we used to be (On the things we did)
And there's nothing that can burn these memories
(Nothing can erase that)
Cause you'll always be my friend (You being my friend)

Cause you'll always be my friend
Yes, here until the end
But we always use to laugh
On the things we did
Nothing can ever bring us worlds apart
Cause you'll always be my friend
