Just let it rain all day
And wash away my sins
Let the light pass me by
So I can see it clear as day

Cause I don't wanna really have any disrespect
Going back will only get you wet
It's better to stay only in feet deep
Deep, deep, deep

Trying to look for a crack in the clouds
But the rain has gotten to me, it's too loud
It could only be another sign
Might find it down the line

But I'll just let the rain
Let the rain fall down
And wash myself clean
I want it, w-want it, w-want it now
Let it rain
Keep the heat away from me
Cause I promise that I'm gonna be standing high
(You know that I can)
Let the rain fall on to me
To me, to me
Let it rain

Keep your hands up in the air
And shout to the sky
Feel the hard rain falling down on your whole body
Don't wanna it to let up

Cause if you really wanna play that game
You gotta follow the rules in the right way
Only if you're in it to win it
Yeah yeah yeah

Keep it steady, keep it slow
But I can't just let it go
Feels like the rain is swallowing me in
Am I about to lose control?

But I'll just let the rain
Let the rain fall down
And wash myself clean
I want it, w-want it, w-want it now
Let it rain
Keep the heat away from me
Cause I promise that I'm gonna be standing high (oh,
oh, oh, oh)
(You know that I can)
Let the rain fall on to me
To me, to me
Let it rain

So let's just wait for the flood
Cause I know it's the only way
That I can, that I can get out of here
And leave this place
I'm screaming, I'm screaming
Up to the sky
I'm not even gonna cry
And if it'll get you, it will get me
Cause we got our hands, got our hands
Yeah, we got our hands all up in the air
Waiting for it, waiting for it
I came here to do what I need to do
This is my life flashing before my eyes
This is it, ohhhhhhhhhhhhhhh....

But I'll just let the rain (Ohhhhhhhhhhhhhhhhh)
Let the rain fall down
And wash myself clean (yeah)
I want it, w-want it, w-want it now (now)
Let it rain (Let it rain)
Keep the heat away from me
Cause I promise that I'm gonna be standing high (I'll be
standing high)
(You know that I can)
Let the rain fall on to me
To me, to me

But I'll just let the rain (Come on, let's go)
Let the rain fall down (Hey)
And wash myself clean
I want it, w-want it, w-want it now (ooooohhhhhh)
Let it rain (Oh, let it rain)
Keep the heat away from me (Oh oh)
Cause I promise that I'm gonna be standing high (Let it
go down)
(You know that I can)
Let the rain fall on to me (On to me)

To me, to me
Let it rain

This is it, this is my life flashing before my eyes
