Everyday is a whole new thing  
You don't know what's gonna happen  
But I try to keep it cool  
I'm bringing out the positivity  
And yet, there are always people  
That are gonna ruin it  
But that's just okay  
Cause all I do is walk away  
And...

Smile  
I'm walking away with a smile  
Gonna last for a long while  
But when you come around  
I really can't help but...  
Smile!  
It's making me blush  
Really can't do too much  
To help with it  
Now all I wanna do is smile  
Just smile

I'm worried about anything  
This is what I do  
Just smile and walk away  
Whenever something bad happens  
I won't have nothing to regret  
As long as you don't make this hard  
Cause everyday I need some baby  
So, won't you show me some baby  
And...

Smile  
I'm walking away with a smile  
Gonna last for a long while  
But when you come around  
I really can't help but...  
Smile!  
It's making me blush  
Really can't do too much  
To help with it

Now all I wanna do is smile  
Just smile

That's just the way I go yeah yeah  
Walking away and forget it yeah yeah  
I won't let that stuff bother me yeah yeah  
Everyday is another challenge yeah yeah  
So, I'm the way I'm suppose to be

Smile  
I'm walking away with a smile  
Gonna last for a long while  
But when you come around  
I really can't help but...  
Smile!  
I'm walking away with a smile  
Gonna last for a long while  
But when you come around  
I really can't help but...  
Smile!  
It's making me blush  
Really can't do too much  
To help with it  
Now all I wanna do is smile  
Just smile  
Oh oh oh!  
Ho-oh-oh-oh-oh
