It's six AM, still thinking about us
About our argument we had yesterday
It kind of torn us apart
But you never said "we're breaking up"
I felt a wave of relief crash over me
But was it me or was it you?
Everyday it seems to be getting more unconditional
I have a feeling you don't think I'm the one

So I try to write a story based on my life
In some contest to see who's is the most interesting
And I don't even know where to start
Because you came in, at the right time, but the wrong
place
I also have to describe what conflicts we get in
And people need to see what I'm feeling inside when
I'm with you
So many emotions have traveled through me
And I can tell I'm gonna be feeling one tonight

I wonder if
I'll live in your memories
Until the end of time
Don't wanna let this go
Down in your memory
Cause I, I don't...

Cause even if we're torn apart
You'd still be in my heart
Just like how we first met
I promise you that I won't forget
So come whatever,
And come what may
We'll still be together
Together
Together
We won't be just staring at the stars
So, just remember
That no one can tell us who we are
But even if they do
I will still love you
Forever and Always

We'll be together
Together
Together

Ooh

Now, I just started my story
I began with my life as a kid (My life, my life)
A kid who experiences love at first sight
But was too shy to admit it to the one (One)
As the years went by, though
I needed a hand to hold and a soul to touch
I wanted it all so much
But, then I found you

I wonder if (Ooooooh)
I'll live in your memories
Until the end of time
Don't wanna let this go (I'll never stop)
Down in your memory
Cause I, I don't... (Never stop oh oh yeah)

Cause even if we're torn apart (Oh)
You'd still be in my heart (Always)
Just like how we first met (Yeah)
I promise you that I won't forget (Won't forget)
So come whatever,
And come what may (You are)
We'll still be together
Together
Together (Oh)
We won't be just staring at the stars (Not just staring at
the stars)
So, just remember
That no one can tell us who we are (We don't need
nobody telling us just what we wanna)
But even if they do
I will still love you (Noooo)
Forever and Always
We'll be together (We'll be together)
Together
Together (Oh-oh-oh yeah)

Don't (Don't)
No (Please don't)
Don't (Ooooooooooh wooaoh oohhhh yeahhh)
No
Oh
Yeah (Once hold)
Don't
No

Oh! (Oh)
Baby (Me and you)

I just finished my story now
Entered it in the competition
I wait for the final moments
It might be too personal, oh

Announcer:
And the winner for best auto biography is...
CAMERON SAMUELS!

(The crowd cheers)

Isn't this lovely?
I never expected it to be so deep (So deep)
I see you come up to me and take my book
I was gonna yell "STOP!"
But instead, I saw you reading it
You looked up to me and ran towards me
You gave me a hug of relief, and I hugged back
It was one of the most happiest moment of my life!

Cause even if we're torn apart (My liiiiiiiife)
You'd still be in my heart (Come whatever)
Just like how we first met (So don't ever)
I promise you that I won't forget
So come whatever, (Don't stop listening to your heart)
And come what may
We'll still be together (Yeahhhhhhhhhh, yeahhh!)
Together (Ooooh ooh)
Together
We won't be just staring at the stars
(So) So, just remember (We can)
That no one can tell us who we are (We're both one in
the same)
But even if they do (You're just like me)
I will still love you
Forever and Always (You said)
We'll be together (Ohhhhhhhhhhhh)
Together (Oh wooooah)
Together (Together)

We'll be together
Come whatever... yeah
