"Without You"

Visit "[Without You](#)" on MotoLyrics.com

Before I met you
I was all alone
I kept crying everyday
Because I had nobody (nobody)
To hold on to

My days were cold and gray
The sun never shined on me
I was in my room all the time
Listening to love songs (love songs)
But then I found you

And I found
The greatest love of all
I kept dreaming of us
Day and night
And without you
I don't know what I'd do
Cause you brighten my day
Make all the clouds go away
It was like a ray of light
That came down on me

Yes, I know
You may think that I (I)
Am over exaggerating
But really now (now)
It's what I felt, yes

When I'm with you
I know my way
It never felt this easy
This is like a miracle (miracle)
To me (To me)

And I found
The greatest love of all
I kept dreaming of us
Day and night
And without you (Without you)
I don't know what I'd do
Cause you brighten my day

Make all the clouds go away (Away)
It was like a ray of light
That came down on meeeee

Cause I can finally say it (say it)
And I can finally, feel it (feel it)
And I know that I know it (know it)
I know that you're my only true love
Cause it's easy to see

Cause I can finally say it (say it) (Oh, say it)
And I can finally, feel it (feel it) (baby)
And I know that I know it (know it) (I know)
I know that you're my only true love
Cause it's easy to see (yeah ah)

And I found (oh oh)
The greatest love of all
I kept dreaming of us
Day and night (I feel it)
And without you (You know it)
I don't know what I'd do (I know you truly care for me)
Cause you brighten my day (You tell me everything)
Make all the clouds go away (Cause it's there to see)
It was like a ray of light
That came down on me (yeah ah)

And without you
I'd be lost by myself
