Earthcrusher

At last, the day of the blast  
Disaster, welcome to the hereafter  
Government powers in conflict  
In a world gone sick  
And they're heavily equipped  
With arms to melt down cities and farms  
The final stage witness the force of pure rage  
While we were all at work  
Trying to earn a wage  
The targets are on lock  
They're ready to engage  
Finally to put to use all of those years of bomb testing  
And biological questing  
For better ways to destroy and torment  
Now let's feel what we've chosen to invent  
Blast off! Everybody stand clear  
Missiles are in the air to sever and sear  
Thugs, executives and cops with tazers  
Trees are dust, skyscrapers are vapors  
I'impact! Now nothing is intact  
Take cover, we're under attack  
Delivering oblivion, one already hit  
But look out, here comes another  
Earthcrusher!

".

This is what we always feared could happen  
But never dreamed it would  
Nuclear holocaust  
Already hit China, Korea  
Next destination: Japan"

Napalm scorched your backs  
And you ask where your tax dollars went to  
So now they have sent you  
A demonstration, devastation  
Four billion degrees of presentation  
Courtesy of some major corporations  
You might have had stock in

But money can't stop the toxin  
They crippled your frame while you were walking  
Now your mouths frothing  
Inhale, poison has replaced oxygen  
Your heart contracts, aorta snaps  
Lungs collapse  
Fluid exiled of urinary tracts  
In this atmosphere to which nobody adapts  
No more petty crimes, nickel sacks  
Rap shows or raves  
Sunshine and bullshit holidays  
Just radiation and tidal waves  
Death to the modern day slaves  
Running down the street with our arms raised  
Atheists now give praise  
The sounds of nuclear bombs  
Whistle right past my ear  
Headed towards Zaire  
Many have died, but you better believe  
That more are bound to suffer  
Earthcrusher!

". 52 seconds since the last attack  
Nearly a quarter of the earth's population wiped out  
Added to the list of countries hit: Africa, West. uh, yo  
I really don't know what's going to happen"

We support this through silence and complacency  
While our government ruled the world under masonry  
Made every nation regret their adjacency  
Brutal hostility, now we're facing the  
Worst burst of energy ever unleashed  
I could have sworn I heard them say that they wanted  
peace  
A quarter of the population is fully deceased  
It's gotta cease, blood rush, my anger increase  
Force, with no remorse  
They need diffusion, knock em off course  
About to unleash my own brand of holocaust  
Gimme an ear mic, I'll start the air strike  
Aimed at those who chose to  
Sacrifice our lives cuz they're uncivilized  
Surprise! Headed for the center of your eyes  
Forty thousand megatons from my lungs  
\*whew\*  
My attack is stunning  
Where the fuck are you running?  
Incoming! World wide assault  
I take out the US Government and then Russia  
Earthcrusher!

"This just in, uh. New Zealand hit. Australia  
I don't know what's going on. \*screaming\*  
. Is this the US? Yeah, I know we got  
Missiles on the pa-"  
\*BOOM!\*

\*rumbling\* Oh my god
