Sometimes I sit yeah
Feeling alone
No one to talk to
I got no telephone
And at night I wake up
I just lie and stare
Come on and save me from this nightmare

Hi Ho Silver
Here come the lone ranger
He's riding on down
To rescue me

I know the road I must take
With a wink of my eye
I leave old friends behind like old alibi
I'll take all they throw against me
I make a stand
For truth and justice and for the common man

Hi Ho Silver
Here come the lone ranger
He's riding on down
To rescue me

And I guess it took some time
For me to decide
If you were just my hero or my friend
Watching with my innocent eyes
Your silver stallion ride
Across my room I listen as they cried

Hi Ho Silver
Here come the lone ranger
He's riding on down
To rescue me

Rescue me
