Im all work and no play 24 hrs a day  
The way Canibus trains  
Makes the green berets look gay  
You goin to war with savages  
Niggas who ain't haven it  
A million africans sacalpin you faggot nigga's  
cabbages

My niggas is too high to get over  
To low to get under  
To wide to get around and too solid to puncture  
Black gods black laws rap stars that attract yall  
With the gravity of a collapsed star

I shutdown my enemies with telepathy  
Electrically my verbal chemistry  
Could kill you with esoteric energy  
I bury motherphukers in the cemetary for testin me  
Yellin fuck you with all my niggas as livin me
