Yo
When Mo Black starts to black out
Bitches pass out
Stick my black dick in they mouth
And dig they back out
Black monk like Thesolonius
The government got a black phobia
That's why they tap my black Nokia
Black fathers
Black mothers
Black brothers
Handcuffed to each other
Goin upstate in black buses
Black thugs
Wrap drugs in backwoods
Smoke til they got black tongues
Black lips
And black lungs
Black iz black
Wack emcees get smacked
Forced to go home and dial 1800 ICANTRAP
