(Chorus:sung by a woman)
We'll never part (through) sickness and health
You are my heart
I love you more than life itself
yet in the middle of the night
I heard you cryin' in ur sleep
It'll be all right I'll be there for you
If you tell me all your secrets

Yet in the middle of the night
I heard you cryin' in your sleep I wanna hold you tight
I'll be there for you.....
If you tell me all your secrets

(verse 1:canibus)
aye yo
Boy meets girl, boy really likes her
boy loses contact with girl but he finds her
So she dates him regardless, 'cuz she thought he was
harmless
And he had her believing' he was the man she wanted.
To spend the rest of her life with. The words "I love
you" are
Priceless, unpredictable like rollin' dices.
Nonetheless in spite of the fright
And repercussions you might get, people still risk they
necks.
Of course, its nice, the feelin' of courtship
Roses and stuff, women never get it often enough
And the reason people love their mother so much
Besides the fact she carried you for nine months, is
trust.
It's a five letter word, that should always occur between
him and her
Before the bees and the birds, word.

(Chorus)
We'll never part (through) sickness and health
You are my heart
I love you more than than life itself
yet in the middle of the night

I heard you cryin' in ur sleep
It'll be all right I'll be there for you
If you tell me all your secrets

Yet in the middle of the night
I heard you cryin' in ur sleep I wanna hold you tight
I'll be there for you.....
If you tell me all your secrets

(verse 2:canibus)

I heard a soft moan in the middle of March
Then I felt a powerful force push me forward like a dart
On your marks, get set, go!
I was off, Flagella was my propeller wiggling back and forth
then I set across for the border, Mother Nature's course
callin' me to the rock of Gibraltar.
The competition tried to be smart but I was smarter
my competitors were swimmin' fast so I swam harder.
Submerged in water, prayin' to my heavenly father
If I don't make it through I'm a goner.
Screamin' out death before dishonor
because I'm awesomely stronger, my stamina lasts longer.
I was destined to be a son instead of a daughter
xy is the male chromosomal order.
Only one'll stay alive and survive, the rest'll be dead
'cause I'm a be the one to fertelize that egg(echoes out)

(Chorus)

yet in the middle of the night
I heard you cryin' in your sleep
It'll be all right, I'll be there for you
If you tell me all your secrets

yet in the middle of the night
I heard you cryin' in your sleep
and I held you tight, I'll be there for you.....
If you tell me all your secrets

(verse 3:canibus)

Mommy, I'm up in your stomach, buggin'
like a comfortous cover, you warm as a oven.
Your husband, stubborn. How can you love him?
smokin' cigarettes by the dozen when he knows that
I'm comin'.
Bad move! You hopin' that Daddy improves
knowin' in your heart that's bull because he's too cruel.
You've been abused, used, you got wounds and scars
think with your mind not with your heart, Let's go to

Grandma's
terminate the lease, call the landlord
give your job 2 weeks notice, pack up your car and go
to New York.
What part? They got a little borough called the Bronx,
Mom
and I heard that's where hip-hop is gonna start.
Hell yeah! I think we need to be right there
4 months in your stomach and i already chose a
career.
When you cry, I hear
and I wish that I could dry your tears but I can't 'cause
I'm stuck in here.
5 months from bein' able to lay against your chest
I can't even hold you in my arms 'cause they ain't
developed yet
but I swear to you
as the God's Almighty Truth, I'm a be there for you.
(I'm a be there for you)

(chorus to fade)
