Yo  
Mc's wit thin throats  
Get lynched wit thick ropes  
Nod til they necks broke  
And they cassette decks smoke  
I'm prolly the most murderous  
Merciless  
Version of a modern day copernicus  
The world has ever heard of yet  
Cold blooded and rugged  
Shove a gun turret to ya stomach  
And start bustin  
Til ya shittin buckets of dry ice nuggets  
Cold freestylin  
Cold rhymin  
Cold enough to freeze the mucus linin  
In ya sinus rock solid  
Spittin  
Straight runnin thru the competetion  
Quicker than calculators take to run through long  
division  
Sprintin  
From the beginnin  
From the start to da finish  
Quicker than  
The cameras niggaz use to see a split decision  
Arms swingin  
A 4/5th slingin  
Ammunition  
Pop ya clip in  
Cap.One and Canibus is  
Listen
