Canibus:

I make your bitch crew shit stools
I put a pistol in your mouth to pull
Then I feed you to the pit bulls
Don't even talk about guns
The only 9 you got is a 5 dollar bill and 4 ones
So I don't give a fuck what none of ya'll niggas say
Cause anything that can't penetrate ricochets
Rhyming with me on a record?
You might as well have died and went to hell instead of
heaven cause
my rhyme
weapon
Is like a medieval torture method
Your 4 limbs tied to four horses all pulling in different
directions
In this profession I get busy without a question
Seeing me is like seeing a vampire's reflection
Fast or slow flows connect like electrodes
I make cassette tape decks blow when I'm in wreck-
mode
Explode leaving areas abandoned
With more radiation behind than spots u.f.o.s landed in

Male Voice:

Is that all soldier?

Canibus:

Yes, sir!

Male Voice:

Is there anything you need?

Canibus:

No, sir!

Male Voice:

Report back to me before the briefing. At ease!

Canibus:

Are you a Navy Seal?

Free:

Yes, sir!

Canibus:

Then say it like you mean it! Tell them who Free from
the Navy Seal

Team is!

Free:
Free be the one rocking shit
Special operatives
Specializing in weapons diagnostic
My survival tactics be drastic
Like Rambo I'm straggling niggas with my bow and
arrow elastic
Whoever said you couldn't be 5 feet and thoroughbred
Never witnessed the cerebal cortex in my head
How many gigabytes does your hard drive hold?
Or does your hard drive fold ?once the signal hits the
node?
Beyond mission control the theory behind your thought
Marie Antoinette, behead me, I still rock
While you choke and suffocate I'll be on testosterone
I'm known to breaking levels down to the values
unknown
A specimen with extraterrestrial estrogen
Kick your intestines in
Sell your testicles to Mexicans
I bring the force like a nutcracker
Annihilate rhyme hackers
Navy Seal linebacker
The last set of pits remain unclaimed
So if you buck against Free you better tattoo your name
on your teeth
I disintegrate those that oppose
Disintegrate hoes with they assholes in they nose
I suppose you wanna run your mouth like ?acasinette?
I put bitch niggas to rest in a bitch bassinet

Canibus:
Are you a patriot?
Sir, yes sir!
Then say it like you mean it!
Tell them who Canibus from the Navy Seal Team is!
I'm the meanest muthafucka on this whole Navy Seal
team
And I can kill anything if it bleeds or breathes
Calling all bitch ass niggas and bitch ass bitches
I got a ?howitzer? bigger than any 4/5 is
Rapping is a raw business

But as an individual I'm as different as anybody's
fingerprint is
?And foreign is a form of the antonym?
Put me in the same category you would put Marilyn
Manson in
Bugging like a satanic evangelist
Jogging butt-naked down Sunset Boulevard in Los
Angeles
Every MC in your crew will get ruined or wounded
You talk the bullshit and you to scared to do shit
I'm the type of nigga that will prove it
Produce shit
I spent so much time in the studio I had to move in
A soldier, who his practices West Indian opia
I can drink the poison from a king cobra
Cause long after ya'll are dead and gone
I'll survive the nuclear holocaust like a roach ?
Male Voice:
