Yo...

I was made on an assembly line

My aero dynamic design

And my stitches were ahead of my time

I come in all assorted colors and dyes

Colors that attract eyes

And I'm defined by capital a.i.

Worn by the feet

Of the illest athletes to ever compete

And I'm worn by the kids on the streets

I keep you gripped to the ground

I'm the reason that people think you got style

The reason people "i love you iverson" - girls saying it

Shine to the croud

The reason fans see you and smile

The reason philly drafted you in the tryouts

The reason you just too quick to be fouled

And I'm probably the same reason you the leading
scorer in the league

Now

I'm the reason that you zig-zag-ziggin'

The reason that you got benjamins

And the reason that you bling blingin'

The reason that you the nicest

Wit the rock, andyou can't be stopped

(word? who are you?)

The answer, from reebok!
