Out of words to say I turned and walked away  
Told her not to worry I'd be back another day but I won't  
When she sees we're through I know what she'll do  
She'll learn to forget me and she'll find somebody new  
but I won't  
I've loved some but she was my only lover I pray I don't  
hurt her too much  
My heart is through but my mind is over  
And I can't help this longing for another woman's touch  
Mhm time will help erase the tears from her sweet face  
If I do the thing I should and clear out of this place but I  
won't  
Mhm know you's foolin' I won't

[ whistle ]

But I won't mhm no I won't
