Coffee cup coffee cup talk to me tell me I'm not in
misery
Tell me she's not really gone tell me we're not here
alone
Hey little coffee cup talk to me tell me it's gonna get
better wait and see
I'm not crazy or could I be coffee cup talk to me

I've talked to the windows but they can't see
They just stand there looking back at me
Talked to the walls talked to the doors
Talked to the ceiling and I've talked to the floors
I've talked to myself but that don't help now you're the
only one that's left
So don't ignore my misery coffee cup talk to me
(Coffee cup coffee cup talk to me hey little coffee cup
talk to me)

Coffee cup coffee cup...
Coffee cup talk to me (coffee cup talk to me)
Talk to me coffee cup tell me I'm not crazy
(Coffee cup talk to me) come on be a friend (coffee cup
talk to me)
Tell me one more time
