"Here's To Forever"

Visit "[Here's To Forever](#)" on MotoLyrics.com

Here's to your future my darling your health and your
happiness too
And here's to the ends of my world you said forever
well here's to forever and you
Drink up dear the sky just started falling here's to the
color so blue
And here's to the ends of my world you said forever
here's to forever and you
See the stars on the ground watch them fall hear the
sound of no sound at all
But the sound of my heart breaking in two you said
forever here's to forever and you
You said forever here's to forever and you
