Only a woman like you can make a man of me  
For a man like me can't go through life alone  
Only a woman like you can make a man of me  
Without your love I'm weak but with your love I'm strong

Down every road I'll have to walk and every path I'll  
have to cross  
I'll need someone who'll be standing there with me  
Someone who can take my smallest dream and turn it  
into the greatest thing  
Darling only you can make a man of me

Only a woman like you...  
Without your love I'm weak but with your love I'm strong
