She's fast on my money slow to call me honey but she's  
regular on my mind

She's fast on the phone mighty slow when we're alone  
but she's regular on my mind

I hear she's been around all over this town

Spends the good deal of time just to puttin' me down  
She's fast on my money slow to call me honey but she's  
regular on my mind

She's heavy on the drinking awful light of thinking but  
she's regular on my mind

She's heavy on the showing awful light on going but  
she's regular on my mind

You know she's been seen round the strange machine

She's a fast movin' mama she's a lowdown mean

Heavy on the drinking awful light of thinking but she's  
regular on my mind

[ guitar ]

She's smooth on the clinch awful rough on the pinch  
but she's regular on my mind

She's high when she kisses awful low when she misses  
but she's regular on my mind

She's been seen on the sly with every available guy

Don't take much analyzing to figure out why

She's tall in the light she awful short at night but she's  
regular on my mind
