She opens my door and crosses the floor and touches
my cheek
She's startin' the storm her fingers are warm the
feelings are deep
She's my sometime sunshine when she turns her good
love on me
She's my sometimes in her time of need

She's needin' me more than ever before by the mood
she is in
She's turned out the light it's that time of night to be
more than friends
She's my sometime sunshine...

I light up a smoke she begins to stroke her hair with my
comb

She'll need me again I wish I knew when I hated alone
She's my sometime sunshine...
