I guess my loving just ain't good enough for you
Every time I turn my head you look at someone new
Your kind don't like walking babe you want an easy ride
What does it take to keep a woman like you satisfied
You've got a plan in mind to make things come your
way
I wonder if it's worth the price you'll have to pay
Life gets cold and empty when your self respect has
died
What does it take to keep a woman like you satisfied
[ac.guitar]
You need more love than you can get from just one
man
Someday you'll taste your cup of life and find it's filled
with sand
And then you'll have to turn and face the girl within
For where I stand I don't think you'll be proud of where
she's been
And when you're running from yourself there ain't no
place to hide
What does it take to keep a woman like you satisfied
What does it take to keep a woman like you satisfied
