1st Verse:

When we began so close to the end all that it was a
desperate attempt a love that seemed real wasn't quite
there and all of the times you said that you cared you
opened me up then closed your heart this poor excuse
has torn us apart promises made are better off kept in
love we trust but lies are what's left

Chorus:

Taking for granted taking advantage and don't you
wish you could take back what you did to me?

2nd Verse:

It was almost convincing the time that we spent wasn't
appreciated was never meant to be more than nothing
is the price that you pay it's more than you bargained
but now it's too late
