"If I Could Only Dance With You"

Visit "[If I Could Only Dance With You](#)" on MotoLyrics.com

Never dreamed I'd see you around
This far from our hometown
Standing face to face it all comes back to me
But I'm with her and you're with him
That's how the night begins
But I've seen night time change things so easily

Chorus:

If I could only dance with you
It would only take a song or two
To show you that my feelings have never slipped away
And when we move across the floor,

You'll remember how it felt before, if I could dance with
you

Call it luck or call it fate
Being here was worth the wait
We've both had lots of time to try to start again
I thought I was doing just fine
But being here has changed my mind
And when the music starts I'm gonna change your
mind again

Chorus

Chorus
