"I Love Women"

Long, dark, and lazy
Small, blonde, and fair
Sometimes a little crazy
Always a little rare

Summer's movin' round
Some are nice and lean
They seem so helpless
Then be downright mean

They love to get your eye
And tell you what they feel
They sparkle and they shine
Their magic never ends

I love women
Double U - O - M - E - N
Women

I love women
Double U - O - M - E - N
Women

I'll make sure they understand
How happy that I am
To be a man

I love women
[Skat singing]

Sly but sentimental
And never on time
You cannot live without them
They're always on your mind

They tell you that they love you
And take away the pain
They can be your inspiration
Or take it all away

Sometimes a little hard
At times a little cold

And then you find them cryin'
At the silly late night show

I love women
Double U - O - M - E - N
Women

I love women
Double U - O - M - E - N
Women

I'll make sure they understand
How happy that I am
To be a man

I love women
Double U - O - M - E - N
Women

I love women
Double U - O - M - E - N
Women

I love women
Double U - O - M - E - N
Women

I love women
Double U - O - M - E - N
Women

I love women
Double U - O - M - E - N
Women

I love women
Double U - O - M - E - N
Women
