you've done it now youve gone and made a big
mistake and i cant allow you to
think you can just walk away so turn around and face
the price that your gonna
pay cause the end is now this is gonna be your
judgement day a cheap shot thats
the way that you pay the game i was blind sided things
will never ever be the
same nice guys it said they always finish last but bad
asses always kickin ass
holes ass your gonna pay your gonna pay theres no
forgiveness this time your
gonna pay your gonna pay its my business your mine
your gonna pay your gonna
pay im burnin his ones to the ground your gonna pay
your gonna pay im gonna
bring you down your gonna pay your gonna payim
gonna bring you down your gonna
pay your gonna pay ...your gonna pay your gonna pay
no more chances no more
excuses no lies your stories endin time to say your
goodbyes nice guys it said

they always finish last but bad asses always kickin ass
