Jim Jones; love is a funny thing, gotta watch what you ask for.
Robbie; im your moon, your my star, your my sun, im you sky, you shine right through those cloudy days, you drive all my pain away
Jim Jones;
If your the sun
Then im the rain (will it storm)
Cant you see opposites attract, boo
Really girl, we like one in the same
So... how opposite it that
And there's no comparison or no one to compare you to
Cause no one gets near to you, so at night time i say a prayer for you
With my son and my moms and my sisters too
But um ...
Loves sick like its just the flu, so just or that im forever indebted
Chanel bags girl, get whatever don't sweat it
A better half make a better me,
Whats done in the past is dead to me, im only looking at whats in head of me
And if you got to go put the led to me,
If you could see my thoughts, some say Louise and George,
Others say clear and clever,
But i say Bonnie and Clyde,
Everybody knows that my mommy a ride till the wheels fall off and the sun collides
The ups and the downs would you report it, What the f** is rich with out Mr. or more
Chorus;
Your my sun
Im your sky
You shine right through those cloudy days , you drive all my pain away
Make you smile when you frown, pick you up when you down
Your the reason cant you see, the reason im a better me
Ronnie;
A little bit of love, and a little bit trust, and a little bit of

faith will be alright
Just as long as you love me girl, and you stay by my
side..
Your the air that i breath, girl you make it so complete
Your my total opposite bringing out a better me
Chorus;
Your my sun
Im your sky
You shine right through those cloudy days , you drive
all my pain away
Make you smile when you frown, pick you up when you
down
Your the reason cant you see, the reason im a better
me
((woahh oooh woahh .. you the reason girl... the reason
im the better me, the best in me, i just want you to know
... hey !! ... imm your moon ..., your my star...your my
sun girl... im your sky ... better love ... ouuu ouuu))
