"On My Way to Church"

Visit "[On My Way to Church](#)" on MotoLyrics.com

Oh yea, this is the one, on the way to church. Life is a journey, we all come from god and one day we will return to the god. But the creator is not as far away as we may think. You gotta look into yourself, look into your family, look into your community, look into our world. Can you find your place? You represent, now undefiled you represent the future. But the future is not tomorrow, the future is today. Be strong. Be strong my brother. Be strong my sister. Be strong my people. You can't hope for a better day, you gotta work for it. If you're on the way to church, check this out. Life is a struggle. It's always been that way since the very beginning. Yea there are hard times and there are good times but you have to choose life before death.
