Running streets all day
I've been looking at the stars all night
And I've been thinking how can I get away

And I've been running in the streets all day
And I've been looking at the stars all night
It got me thinking how can I get away
It got me thinking 'bout a perfect day

And I could tell you something we both know
We can hustle but the streets get cold
And I've been thinking how can I get away
It got me thinking 'bout a perfect day

She got the babysitter watching the kids
She getting sexy in here all day
She gonna party all her troubles away
She must be thinking 'bout a perfect day

We could be anywhere in the world
But we right here
We gon' be right here for this perfect day
Got me thinking 'bout a perfect day

My perfect day, no work today
Got me thinking 'bout the breeze
When the sun get hot on a water
With the surface play

Nah, no turf today
Told my man throw his work away
I got a foolproof plan, make a couple of mil'
And I think it's gonna work today, ay

And I could tell you something we both know
We can hustle but the streets get cold
And I've been thinking how can I get away
It got me thinking about a perfect day

She got the babysitter watching the kids
She gettin' sexy in here all day
She gonna party all her troubles away

She must be thinking 'bout a perfect day

We could be anywhere in the world
But we right here
We gon' be right here for this perfect day
Got me thinking 'bout a perfect day

No gunshots, no casket, no sirens flashing
No V's, no police, no handcuffs, no rips, no lashes
We drunk, no crashes, twist it up, no passes
No sticks, no skins, no seeds
We blowing the finest grasses

And I've been running in the streets all day
And I've been looking at the stars all night
It got me thinking how can I get away
It got me thinking 'bout a perfect day

And I could tell you something we both know
We can hustle but the streets get cold
And I've been thinking how can I get away
It got me thinking 'bout a perfect day

She got the babysitter watching the kids
She getting sexy in here all day
She gonna party all her troubles away
She must be thinking 'bout a perfect day
