Y'all don't want it with us, y'all don't want it with us

Y'all don't want it with us, Clover G's

Y'all don't want it with us, y'all don't want it with us

Y'all don't want it with us, Dip Set

Y'all don't want it with us, y'all don't want it with us

Y'all don't want it with us, Clover G's

Y'all don't want it with us, y'all don't want it with us

Y'all don't want it with us, Dip Set

This sixteen bars of my brain

I show my scars through my pain

I write my bars on the plane

I bring my boys on the plane

There's nothin' like it, I swear

Can't no other rappers compare

'Cuz I can spit it or write it

Just admit it, you like it

I'm the hottest around

Niggaz know how I get down

But this ain't makin' the band

I'm tired of shakin' your hand

I got the piece to the puzzle

I'm on the streets when I hustle

I got the heat with the muzzle, okay, okay

You think you know it all

But I prove to show it all

When I move, you get one shot

Hope you don't blow it, dog

Don't bite the hand that feeds you

You just a lukewarm, bookworm nigga

And believe me, I can read you

I'm tired of snakes and rats

I'm movin' forward, you pacin' back  
While I'm in N.Y. collaboratin', blazin' tracks  
You gotta face the fact, I got the only platinum plaque  
I did it well, even when I'm gone, my shit'll sell

Y'all don't want it with us, y'all don't want it with us  
Y'all don't want it with us, Clover G's  
Y'all don't want it with us, y'all don't want it with us  
Y'all don't want it with us, Dip Set

Y'all don't want it with us, y'all don't want it with us  
Y'all don't want it with us, Clover G's  
Y'all don't want it with us, y'all don't want it with us  
Y'all don't want it with us, Dip Set

Just let my movement protrude, Dips  
Or we will move on you dudes, fuckers  
And you niggaz that's beefin'  
Okay, I'll chew you like food, yummy  
Don't get Houston confused, no  
'Cuz they music is screwed, purple

They ain't slow for a second  
'Cuz they sippin' on lean  
They will roll up with weapons  
The four fifth and the beam, boom  
Get you tore up, we stretch 'em

You talk shit to my team, R.I.P.  
We controllin' our section  
Raw shit for the fiends, I'll smack you  
The boys controllin' my section  
'Cuz we gettin' that cream, squalie

And we roll in Rovers  
Iced out birds and frozen clovers, blingin'  
You know I'm smokin' dozers  
With that thing I roll with soldiers, East Side  
So if you want it fam, you'll get it fam, I'll hit you man,  
unh  
And when I grip that blam  
Pop! Pop! Pop!, Dip Set the fam

Y'all don't want it with us, y'all don't want it with us  
Y'all don't want it with us, Clover G's  
Y'all don't want it with us, y'all don't want it with us  
Y'all don't want it with us, Dip Set

Y'all don't want it with us, y'all don't want it with us  
Y'all don't want it with us, Clover G's  
Y'all don't want it with us, y'all don't want it with us

Y'all don't want it with us, Dip Set

I'm ready to let you have it  
Glocks and automatics  
I put them in your chest  
You shoulda wore your vest  
'Cuz we comin' to your house  
With the forty cal  
Dumpin' twenty five rounds  
Now bitch, lay it down

So when we pull up to clubs  
They say we known for the brawlin'  
And all these bottles I'm poppin'  
It's uncontrollable ballin'  
Straight from the projects  
I'm still cased up with charges  
It only takes me three seconds  
To straight spray out a cartridge

I'm prepared for the streets  
And I ain't scared of police  
You know my gangstas ride out  
We know to fliz with them heats  
We cop cars with them spinners  
I be in Texas for breakfast  
Sippin' on Purple and Sprite  
And back in Harlem for dinner

Y'all don't want it with us, y'all don't want it with us  
Y'all don't want it with us, Clover G's  
Y'all don't want it with us, y'all don't want it with us  
Y'all don't want it with us, Dip Set

Y'all don't want it with us, y'all don't want it with us  
Y'all don't want it with us, Clover G's  
Y'all don't want it with us, y'all don't want it with us  
Y'all don't want it with us, Dip Set
