[VERSE 1]

Every time we meet
I feel the beat
There's a thousand sounds inside my heart
I never hear when we're apart
But the moment you come near I start to
Feel the beat

Your smile, your style
Your lips, my heart flips
We kiss and a thousand drums repeat
The beat

Every time we meet
I feel the beat
When you hit me with that French perfume
My heart goes zoomin' around the room
Like a tom tom tom goin' boom boom boom
And I feel the beat

You sigh, so do I
We caress, oooh yes
You're mine and a thousand drums
Repeat the beat

[Repeat VERSE 1]

I feel the beat
