When we get together
I always hope there'll be nice weather
Between us, there's nothing worse
Than when you turn into a thunderstorm with me

And how do I help you?
And how do you help me?
We'll buy an umbrella
And we might be safe from the turbulent weather

How do I help you?
And how do you help me?
We'll buy an umbrella
And we might be safe from the turbulent weather

When we get together
I always hope there'll be nice weather
Between us, there's nothing worse
Than when you turn into a thunderstorm with me

How do I help you?
How do you help me?
We'll buy an umbrella
And we might be safe from the turbulent weather

Oh oh oh oh oh
Oh oh oh oh oh oh...
Oooo...
Ooooo...

La la la
La la la la...
