Get your face all pretty and your hair done right
Cause we're gonna do the town tonight
I'm coming into town and right on time
I still got your loving on my mind

I'm a coming home I gotta make some love
I'm a coming home sweet turtle dove
I'm a coming home to make sweet love to you

Well I see down the road there's a big truck stop
They got a pretty little waitress with the carrot top
She's pretty as a doll pretty as can be
But don't you worry honey she ain't nothing to me

I'm a coming home I gotta make some love
I'm a coming home sweet turtle dove
I'm a coming home to make sweet love to you

(Instrumental)

Well I came to a hill and the truck lugged down
Threwed in low and she's hugging the ground
Scratching gears but I'm going again
I'm coming home baby I'm dogging it in

I'm a coming home I gotta make some love
I'm a coming home sweet turtle dove
I'm a coming home to make sweet love to you

Get your face all pretty and your hair done right
Cause we're gonna do the town tonight
I'm coming into town and right on time
I still got your loving on my mind

I'm a coming home I gotta make some love
I'm a coming home sweet turtle dove
I'm a coming home to make sweet love to you
