No matter what I do  
Can't help if it's wrong  
You know I'm blue  
So I'll go on lieing my heart out for you.

---Instrumental ---

You don't adore my love anymore  
You've fallen for someone new  
You've made me lonely a few times before  
But never have I been so blue.

Why should you be just a memory  
I can't find my way without you  
Ol' melancholy's got a hold on me  
And I've never been so blue.

Nothing but nights of loneliness  
No where to go but I start out  
Trying to lose this moment in  
But memories are tearing my heart out.

I wouldn't mind being lonely sometimes  
I'd go right on loving you  
But each night and day  
Since you've been gone away  
I never been so blue.

--- Instrumental ---

I wouldn't mind being lonely sometimes  
I'd go right on loving you  
But each night and day  
Since you've been gone away  
I never been so blue...
