I promise you he'll never know  
That once we loved each other so  
The past we knew I'll not reveal  
My lips are sealed

My heart may cry with every beat  
Without your love I'm not complete  
It doesn't matter how I feel  
My lips are sealed

Let there be laughter  
Not one single tear  
And ever after  
Let your fears disappear

If you love him as I love you  
Forget the past I led you through  
Just don't look back it's all concealed  
My lips are sealed

Let there be laughter  
Not one single tear  
And ever after  
Let your fears disappear

If you love him as I love you  
Forget the past I led you through  
Just don't look back it's all concealed  
My lips are sealed
