Please forgive, and then forget me
I'll never be, the one for you
Before your lips, become to temptin'
Look around, for someone new.

Just because, your love is true
That doesn't mean, that mine is too
I'll hold you close, so close, just for a day
And when I'm gone, your heart will break.

Leave me now
Please, for it's much to late
And the love you have for me
Has turned to hate.

Please walk away, away
For you've been warned
I'll only hurt, you if let me
Linger not, until the storm.

Please forgive, and then forget me...
