If all of the stars were a million guitars
And the moon was the girl that I loved
If they played for me and to each melody
We could dance in the heavens above

Waltzing with my darling in a paradise with my girl
The moment I found you my heart left the ground
To go waltzing on top of the world

We'd go right on dancing and find sweet
Romancing then when we'd linger to love
My darling, how sweet you'd look swinging your feet
From a silver lined cloud high above

Waltzing with my darling in a paradise with my girl
The moment I found you my heart left the ground
To go waltzing on top of the world
