Young hearts can be foolish and make a mistake  
If they're not forgiven young hearts can break  
So kiss me, my darling, hold me tight  
Young lips make everything right

Young hearts can be cruel, young hearts can be blind  
I'm sorry that mine, dear, was one of that kind  
If you can forgive me, kiss me  
And then our young hearts will be happy again

Young hearts can be foolish and make a mistake  
If they're not forgiven young hearts can break  
So kiss me, my darling, hold me tight  
Young lips make everything right
